

Kwityn

PROGRAM

Are you thinking about attending university
but unsure of what degree to take?

Do you have an interest in science, technology or business?

Would you like to take courses in entrepreneurship,
coding, videography and Indigenous science?

The **Kwityn** PROGRAM
may be right for you!

The **Kwitn** PROGRAM is a new interdisciplinary bridging program that will allow you to explore your interests in science, technology and business in a small group setting with your peers and learn about careers related to these fields of study. At the same time, you'll gain valuable academic skills to set you on a path for success in your chosen degree. In the second year of the **Kwitn** PROGRAM, you'll have continued access to tutoring and receive assistance to find relevant summer job placements.

Is the **Kwitn** PROGRAM right for you?

- Mi'kmaw perspectives, worldview and traditional knowledge will be integrated into courses, ensuring that the course content is relevant to you and that diverse learning styles are supported.
- Mi'kmaw Elders and traditional knowledge holders will participate in program delivery, enabling you to access cultural knowledge and culturally-based supports.
- Most courses will be delivered in-community or via a blended learning model using videoconferencing, so you can stay in your community.
- Most courses will be delivered in a modularized format, allowing you to focus on one course at a time to maximize success.
- Tutoring and peer support are built into the program, helping you achieve your academic goals.
- Field trips and industry tours will enable you to explore your career options and make informed decisions about your future.
- A mentor-coordinator will support you through your transition into university study and help you find relevant summer employment opportunities.

» *Kwitn is the Mi'kmaw term for canoe, an example of Indigenous knowledge, technology and innovation that enabled exploration and trade.*
